Meet The Complete Access Bundle

The Complete Access Bundle is the most comprehensive audio production software package currently available. Combining Slate Digital's All Access Pass and Solid State Logic's SSL Complete software subscriptions, the Complete Access Bundle gives users instant access to over 100 professional plugins and an expansive list of additional features and resources.

What You Get

- Over 100 prestigious, award-winning processing and creative plug-ins (worth over $12,000) from Slate Digital, Solid State Logic and Harrison Audio
- Renowned Slate Digital analog emulations like Virtual Mix Rack, Virtual Tape Machines and Virtual Buss Compressors, plus creative tools like MetaTune and Murda Melodies
- Legendary Solid State Logic modeled consoles and channel strips like the 9000K and 4K B, plus more celebrated compressors, equalizers, reverbs and delay
- The powerful ANA 2 Ultra Bundle soft synth and over 1,000+ exclusive Slate Digital presets (plus custom GUI skins)
- Over 20GB of exclusive royalty-free sample packs
- Access to hundreds of professional tutorials from leading producers and educators via the Academy educational hub
- Enhanced access to VIRTU™ assisted mastering with three (3) free monthly masters
- Immediate access to all current plug-in updates and future software additions from Slate Digital, Solid State Logic and Harrison Audio
